

COMPETITION HANDGUN ABILITY CHECK

Our ability checks are designed to evaluate your skill level against the minimum standard that you would require to safely participate in the program. All of the checks are based on the level of proficiency that you should have mastered and be able to demonstrate having regard for your previous experience. If you do not pass, we will provide a credit for a future course. In fairness to all of our students we have to insist on a minimum skill level.

We have furnished you with this information so that you can go to a range and check your own skill level ahead of time.

Skill check criteria (do this test in your own time before arriving for training)

- explain the four weapons safety rules.
- Demonstrate safe load, unload and presentation skills.
- Understand and articulate the four weapons safety rules.
- Demonstrate safe load, unload and presentation skills.
- Fire 2 rounds each at 2 targets while advancing from 12 metres to 7 metres – within 8 seconds.
- Moving laterally along 10 metre line, fire 2 rounds each at 2 targets, in 8 seconds.
- Immediate action drill - 3 rounds (Mozambique drill) 2 chest and 1 in the head, including clearing a misfire from 7 metres – 8 Seconds.
